

## Planting Inspection Form

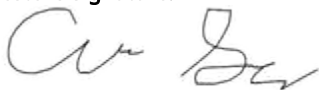

<b>Inspector:</b>	<u>Connor Griggs</u>	<b>Average Trees Per Plot:</b>	<u>10.84615385</u>
<b>Contractor:</b>	<u>Guest Forestry Services, Inc.</u>	<b>Total Plots Taken:</b>	<u>39</u>
<b>Management Unit/Client:</b>	<u>Bank of America</u>	<b>Total Trees Talled:</b>	<u>423</u>
<b>Tract:</b>	<u>Thames</u>	<b>Total Properly Planted:</b>	<u>419</u>
<b>Planting Start Date:</b>	<u>January 29, 2026</u>	<b>Total Improperly Planted:</b>	<u>4</u>
<b>Planting Completion Date:</b>	<u>February 4, 2026</u>	<b>% Properly Planted:</b>	<u>99.05437352</u>
<b>Average Row Spacing:</b>	<u>13.72</u>	<b>Total Planted TPA:</b>	<u>542</u>
<b>Average Drill Spacing:</b>	<u>6.1</u>	<b>Total Properly Planted TPA:</b>	<u>537</u>

Yes	Were seedlings transported and stored away from harmful materials such as gasoline, diesel fuel, oils, and other chemicals?
NA	Were appropriate dibble bars used? (Hand)
Yes	Were seedlings stored in cool, shady place and covered with a heat shield tarp?
Yes	Was the planting furrow at least 10" deep? (Machine)
Yes	Were seedling roots kept covered and moist while in machine planter boxes? (Machine)
Yes	Were seedlings planted with root collar 2-3" below ground line?
Yes	Were planting holes firmly packed?
NA	Were loblolly or slash containerized seedlings planted at the ground line or deeper?
NA	Were longleaf containers planted where the top of the plug is no lower than ground line and no higher than 1/2" above ground line?
Yes	Was soil moisture acceptable for quality planting? (note if too wet or dry)
Yes	Was the stocking target (TPA) met?
No	Were more than one day's supply of trees stored at the planting site? (If trees are not being stored in a refrigerated van on-site)
NA	If seedlings are delivered in a refrigerated van, are bags stacked over two high without spacers? Pre-sorting or culling observed?
No	Were planters carrying more than 2-3 hour supply of seedlings in bags? (Hand)
No	Were planters "Slinging" or "Beating" seedling roots?
No	Were any small seedlings planted? (root collar diameter < four millimeters, < 6" of shoot height, root to shoot ratio < 1:1 to 2.5:1)
No	Did any of the seedlings exhibit symptoms of heat damage?
No	Were there any "J" or "L" rooted seedlings present?
No	Were there any exposed lateral roots?
No	Was there any root pruning observed?
Yes	Were any seedlings planted with a 45 degree or greater lean?
